Company & Department

Vestas Nacelles America, Inc.
Logistics Department

Responsibilities and Tasks

The Operational Buyer is responsible for creating and transmitting purchase orders to suppliers. Buyers are required to build relationships and partner with suppliers to decrease costs, increase performance, and streamline processes. You will be responsible for collaborating with Global Sourcing and Transport to drive initiatives to improve Key Performance Indicators such as Supplier Delivery Accuracy and Capability. You will also work on projects relating to Just-in-Time and Kanban systems. Innovation, process improvement and teamwork are essential components of the position. Position is responsible for approximately 50 suppliers. You will gain a working knowledge of Vestas suppliers, transportation network, supply chain logistics, procurement policies, and team dynamics.

Qualifications and Work Experience

- * Bachelors degree in Business, Industrial Engineering, Supply Chain, or related discipline
- * Minimum 6 years purchasing experience in an industrial / manufacturing setting
- * Experience with 250+ SKU's required
- * Kanban or lean knowledge / training required
- * Excellent communication skills; able to communicate with all levels of employees and existing and future suppliers
- * Able to actively build supplier relationships
- * Demonstrated ability to suggest and make supply chain improvements
- * Collaboration
- * Mastering complexity
- * Strong analytical & problem solving skills
- * Team skills and processes
- * Project management
- * Computer proficiency
- * Able to travel 5 – 10%
